MET WITH CLOSED DOORS.

An anti-Noonan meeting was held to-day at noon in the office of Mr. James L. Biair on the fifth floor of the Laciede building, Fourth and Olive streets. The meeting was for the pur-pose of "considering the best means to defeat Judge Noonan," and was held in pursuance of the following call:

THEY TRINK HE WILL WIN.

Bell has been asked to resign the nomination, but rectused, and Campbell's riends take the sation as justification for going into an examination of his claims for this or any other position on the ticket. On 'Change to-day his record in the Council was the subject of much discussion, and about noon representatives of the Merchanist Exchange called on Chairman Carlisies of the Democratic City Committee at his office at the Court-house and demanded that Bell's normination for the important office of the Compiroller be rescinded. Chairman Carlisies when questioned about the demand said: It told the gentlemen who called that if the merchants would formally make any request of the Council and the C said to a reporter for the POST-DISPATCH:

"The che ges made against Col. Butler with reference to the lines along which he is making his campaignjare untrue and unjust. It is charged that he is using his war record, that he thinks it is still less instead of 1850, and that he can beat the Democrats now with the ballot as he did then 'in the open' and 'behind cannon.' These charges are simply faise. Col. Butler is not making his campaign' behind cannon' nor is he referring to his record in the war in any way. He is running on his merits simply-running as a citl en and as a St. Louisan—and is willing to rest his case right there. He has never carried his party spirit to a degree which could be called olitter, but quite the reverse. When the delegation went from this city to invite President Cleveland to visit us, Col. Butler and I were the two Republicans who went with it, and the part he took was quite worthy of the good citizen that he is. Then, again, when Mr. Cleveland came here, Col. Butler took an active and conspicuous part in the entertainment of the Chief Magistrate, He was, I think, Chairman of the Reception Committee, and lent his time and money to the work of assisting his fellow-citizens, who were Democratic President.

"The charge of his pronounced anti-confederate spirit is also faise. He has always manifested the most friendly apirit to exconfederates and prominent Democrats, and believing that the war was over, has in no way sought to prominently bring forward the part he took in it while it was being waged. These facts will be verified by such staunch Democrats as Jerome Hill, C. C. Rainwater, Sam Kennard, Seth Cobb and others of that character. In his dealings with

UNION LABOR CONVENTION.

Noonan Indorsed for Mayor and a Mixed The Union Labor party held a convention last night at the Central Turner Hall to select a city ticket. There were five delegates from each ward in the city and a full representatio

to order. Wm. H. Black was made temporary charman, and John J. McGarr, temporary secretary. After the call of wards, the Coumittees on Permanent Organization, Resolutions and Credentials were appointed, and a recess of forty-five minutes taken to allow the Credentials Committee to straighten out a number of contested delegations.

Every delegate in the place was seized upon by from one to half a dozen of his friends who wanted pledges and indorsements. Andy Brown and M. E. Lennon were the only two Republican workers to be seen in the hall; they talked to one or two delegates and then left the place. Noonan's friends were numerous and worked steadily until the committees came in.

The Committee on Credentials had little difficulty over ettling upon the delegates for most of the wards, but had some trouble over the Fourth. One of the contesting parties was headed by Central Committeeman Nolan. When the inction was made to adopt the report of the Credentials Committee, which recommended the seating of the idelegation opposed to Nolan, that gentleman jumped to his feet and began a loud and lengthy explanation of the situation of affairs. A delegate moved that he be put out of the hall. Mortimer Shaw moved that Mr. Nolan be allowed fifteen minutes in which to state his case. Mr. Shaw's motion prevailed and the convention prepared to hear Nolan's tale.

NOLAN TALKS.

During his speech he was frequently interrupted with, "Let Down," "Rats" and other jeering remarks, but went on until the end. He said that no credentials should be accepted unless signed by the Central Committee man of the ward. The Central Committee had adopted a resolution to that effect last Saturday. He had called a meeting in the hall over the saloon to choose a delegation, and when

of the ward. The Central Committee had adopted a resolution to that effect last Saturday. He had called a meeting in the hall over the saloon to choose a delegation, and when he asked that the hall be paid for in advance he was refused. He thereupon ordered the bar-keeper to put out the gas and appointed a delegation himself. One of Nolan's opponents then explained that Nolan had come around for endorsement of a delegation that was not considered good and that another delegation had been chosen at a meeting held in another hall. It was then decided to put Nolan out, but no one could be found who would undertske the task. After a narrow escape from a free fight Nolan went out with a good deal of noise and after stating that he was for Noonan for ever.

The Committee on Permanent Organization reported W. H. Blake Chairman, George A. Hoose Vice-Chairman, F. X. Rotterman, Secretary, John J. McGarr, assistant Secretary and John Gladhill Sergeant-at-arms.

The delegations were to name a candidate for the House of Delegates and for the Central Committee.

On many of the corporation records in this city my name stands marked in black because I have stood between the people and monopolisite influence. Capital and labor should work together. Capital has oppressed labor and not labor eapital. This insane race for wealth I have often thought of and deeply considered. I will never be a party to making the strong stronger and the weak weaker. In reference to this nomination, I thank this convention as I never thanked a convention before, because I never went out of my way to get it. I have not sent an agent or a penny, nor would I. I will not delay you further except to say that your indorsement to-night places my election beyond peradventure. The die has been cast here. The candidates are: Republican, Charles F. Sievers, a storekeeper at King's highway and old Manchester road, and Democrat, E. B. Matthews, a painter, living at Tower Grove. The Judge stepped to the front of the platform and said:

FRIENDS OF THE UNION LABOR PARTY—While sitting in a restaurant to-night with my wife and children I was thinking of this important convention. I went to the telephone to find out what result it came to as concerned my-self. I did not send agents here. I felt safe in the hands of the laboring men of St. Louis. Another Row in the Nineteent

There is another row in the Nineteenth Ward, but this time it is a difference which will only help the party. Edw. McGugan was Democratic primaries, but John Clark, backed by the Thurman Club, proposes to make the race as an independent candidate. The can-didates at large on the ticket would be pleased to have one such row in every ward, as it is one to bring out the full Democratic vote and to make converts. Neither of the candidates will dare to enter into any trading negotia-tions.

M. K. McGrath Nominated

The delegates elected from the wards comvesterday to nominate a candidate to succeed tate Senator Geo. A. Castleman, resigned. At the meeting Chairman Jas. L. Carlisle of the Democratic City Committee nominated Thos. K. Skinker. John D. Finney, seconded by Judge Madili, nominated M. K. McGrath. The ballot resulted as follows: McGrath, Skinger

Last night Eric Lundt, the Eighth Ward Cenfral Com-mitteeman, was fixed upon to make the race.

The betting on the election thus far has een very light. Very few bets were made in the various pool rooms to-day. All wagers offered were by Noonan men. The betting is even, but Butler money is very scarce while Noonan backers are plentiful. The betters are holding back until Monday when it is pre-dicted a big amount will be staked on the re-

It is very uncertain now whether the Jupiter Iron-mill will begin operation next Monday, as was anticipated some time ago. The absonce of the Garrisons from the city will probably have some effect on the mill not resuming until they return.

The Thirteenth Ward Democratic Club held

The Thirteenth Ward Democratic Club held a large meeting last evening at st. Boniface Hall. W. S. Haddaway occupied the chair, R. R. Southard, the Democratic candidate for President of the Board of Public Improvements, devoted a few minutes to speech making, which was enthusiastically received. The club passed resolutions to support Noonan.

The Post Disparch's effort of making the 30th of April a grand holiday is being followed by the business fraternity of this portion of the city. A gentleman stated to a Post-Disparch representative last evening, that he has called on nearly all the business men here, and they in turn will decorate their places of business with flags and bunting in commemoration of the day.

The first Noonan flag raised in the city was bandown here with the state with the state of and bunting in commemoration of the day.

"What's the trouble, officer?" asked the Captain.

"Stealing a barber's pole."

The officer feit quite proud of his capture and related with particularity all the circumstances of his arrest. The Captain looked upon the offenders and was about to order them to be locked up for the night, when one of the students produced a paper and suggested that berhaps the Captain might like to look at that. The Captain looked at it. Then turning to the policeman he said: "Officer, you may return to your beat." A moment later the students might have been seen fling out of the station with their tonsorial standard held properly aloft.

They had not gone far, however, before they were again brought to a halt by another officer, who, like his predecessor, wanted to know where they were going with that pole. He was informed that that was their business, and he in turn assured them that he would make it his pusiness. which he did by escort.

"These fellows have stole a barber's pole, and—"
"Very well; you may return to your beat."
The Captain smiled as he dismissed the students. Hardly had he resumed his wonted gravity of aspect before the door opened and again entered a policeman, six young men and a barber's poly.

And so it went on. Six several times were the students and their barberous property brought by as many different policemen into that station. and had not an officer been specially sent out to warn all patrolmen under no circumstances to interfere with six young men and a barber's pole, it is more than likely that that pole and its bearers would have been brought into that station as many times that night as there were patrolmen in the district.

People who wondered what was the cause of the hilarious laughter which proceeded from the usually grave and quiet station, on the night in question, are now fully informed of the same.

est prices call on him."

"REFORMING SLOWLI.—When we struck this town the Chief of Police lay drunk on the sidewalk in front of the post-ofice, and the six patrolmen were playing nool or poker. Any one of the crowd could be bought for half a dollar. We have been pegging away for reform with each issue of the Kicker, and we are pleased to note an improvement. The Chief hasn't been drunk for the last fortnight, and yesterday we counted four patrolmen on their beats at one time.

"All reforms move slowly, but patience and perseverance will accomplish much. We shall keep at it, and we predict that the day will yet come when we shall have a police force which will not fear a drunken Indian nor sell out to a gambler for less than \$2 a seil."

"NOT THIS YEAR. -Considerable anxiety has NOT THIS YEAR.—Considerable ankiety has been expressed by our many friends and well-wishers over the fact that the Kicker did not get the city printing again this year. In answer to all inquiries we reply that we did not want it. The total income last year was 99 cents, while we lent over \$15 to the Mayor and Aldermen and never expect to get a back. We can't stand that kind of a racket more than one year.

"Some Other Eve.—We have received several communications from leading citizens, asking the Kicker to 'go' for Judge of Probate Smith, who has been too befuddled with bad whisky for the last month to attend to business. There is no doubt that the Judge ought to be raked fore and aft, but we can't do it just now. We are his creditor for about \$20, and if we opened on him he'd tell us to whistle for our loan. As soon as we get our money back we promise to make the fur fly, not only in the case of the Judge himself, but from the coat of his brother Bill, who is also daily steeped in 'liquor and rendering himself a public nuisance. Have patience, gentlemen.'

The Senate took a recess at 10:30 to hear the
lecture of Rev. T. DeWitt Talmage in the hall
of the House, the Senate marching in a body
into the hall. Gov. Francis, on introducing
the speaker, said:

LADIES AND GENTLEMEN—Wherever the
Christian religion is known the name of the
Rev. DeWitt Talmage is indissolubly assoclated as the able and eloquent expounder of
the Holy Word. His name is known throughout the land in every hamlet, in every household as the greatest pulpit orator of the age,
and as such we honor him and we welcome
him to our midst. The people of Missouri
have known him well by reputation, and their
representatives will join me in a hearty welcome to the grand State of Missouri for Rev.
DeWitt Talmage.

The Brooklyn divine spoke only a few
minutes in which he took occasion to compliment the personal appearance of the membership and particularly the great State of Missouri of which he said: "She is keeping full
pace with all the great sisterhood of States,
but notwithstanding our State and National
advancement we are but entering upon the
preface of the great volume of national history."

preface of the great volume of national history."

The speaker was frequently cheered and the special compliment paid the members caused a hearty round of laughter. Dr. Taimage spent the forenoon at the Capitol calling upon the Governor and other State officers.

THE HOUSE PROCEEDINGS.

The House passed the live stock inspection bill to engrossment this morning after adding several important amendments thereto by a good majority. Senators Green Clay and Champ Clark, who are its leaders in the respective House, now feel quite confident of its passage on third reading.

again posponed it election of officers, and the annual meeting was adjourned to Thursday of next week. Only three or four stockholders were present, and the meeting, which was wholly private, did not last over half an hour. President Edgar J. Welles hurried back to New York by the next train. In a hasty ever had been done and that the discussion was wholly informal. It is understood from another source that the successive delays in electing officers are due to the fact that a reorganization of the management of the company is in contemplation at the instance of the English syndicate holding large amounts of the company's bonds. It is proposed to give the syndicate, now represented chiefly by Treasurer Arnold, an increased representation in the management of the company's affairs, both in the New Tork office and on the Pacific Slope, although thelprincipal management will remain practically as at present. It is related that lawyer Wm. Hammersley of this city who is general counsel for the company will leave for Europe next week for consultation with the English bondholders.

Mr. Hammersley left for New York last evening for conference with representatives of the bondholders now in this country.

When questioned as to the company's consultation with the English bondholders.

resentatives of the bondholders now in this country.

When questioned as to the company's connection, if any, with the recent gold boom in Lower California an official of the company, gave this as an official and authoritative statement: "The officers of the International Co. know nothing further of the gold excitement in Lower California than they have read in the newspapers. They desire no excitement over gold mining as the minerals of the country, under the terms of the country, under the terms of the concession, dos not belong to the company, The Mexican Government maintains its control of all minerals and hold the mineral lands subject to the liberal laws of the country on that subject. While the officers and stockholders of the company think the country may be rich in mines, which needs to be developed with large capital, they doubt the existence of profitable placer mines, and especially of any so rich was reported in the recent accounts. The chief interest of the company is in the developing of agricultural interests of their territory and in securing permanent colonization under the terms of their concession."

Especial interest, of course, centered in the appearance of Miss Jessie Foster, whose singing at the rehearsal had made a most favorable impression. She received a cordial welcome from the audience and was compelled to respond to an encere after each of her numbers. It was unfortunate that so large a hall should have been the ploce of her first effort. The test, however, on this account was the more severe and she stood it admirably. Her voice is fresh-clear, flexible and of excellent quality. There is still room for strengthening and for building up firmer and fuller tone. Miss Foster showed admirable skill in her vocalization, singing Rade's air and variations in E flat and Eclert's "Echo Song," For encores she sang "Annie Laurie' and "Comin' Thro' the Rye" with charming expression. Mr. Porteous was in good voice and sang Matter's "Patris" finely. Amusement Notes.

For several years the citizens of Aiton have been endeavoring to secure a new public building for the city, and the Republican citizens attribute Jehn Baker's failure to be returned to Congress from the district mainly to his inability to secure an appropriation for a new building.

Their desire was almost gratified by to-day's fire. The building is a three-story brick, situated prominently in the center of the square, near both the railway station and steamboat landing. The structure is quite a good size and shows well, but is entirely too small for the demands made upon it. It is at once court-house, jall, post-office, operahouse and public library, the hall (which was destroyed by the fire) being the largest one in Alton.

Of the increase in capital stock it is proposed to issue 400,000 shares at the par value of \$40,000,000, making the total amount outstanding equal \$128,065,200. A reporter asked Mr. I. E. "The Northern Railroad of California," he replied, 'has purchased a number of lesser lines in the State. They will be paid for with the stock of the Northern Railroad, which in turn will be reimbursed with the stock of the Southern Pacific. It is to meet this new outlay that the management of the road has decided to make this new issue."

"Does the Southern Pacific contemplate buying any railroads in Mexico?"

"No," was the answer. "it does not. We are not prepared just yet to give any details of our new purchases in California, but we will be very shortly. Meanwhile, this much is certain, the new issue of stock is for this purpose and this purpose alone."

The West Granite reached this morning the lowest point that it has touched since the offer made by the purchasing syndicate. The market opened at \$1.12½ asked, but no sales were made above \$1.10, at which 400 shares changed hands. The stock was offered at this price, finding no takers, and soon dropped to \$1.07½. At this figure transfers were large, over 2,200 shares changing hands, but the offers continued after purchasers had disappeared, and at length the stock fell to \$1.06, at which it closed, with sales aggregating over 2,000 shares.

Charles Clark was expected in the city this morning, but failed to arrive. It is understood that he has been engaged in examining the mine, and that on his report depends the consummation of the transfer or its rejection. No difficulty is anticipated in bringing the great majority of West Granite stockholders into consonance with the views of those who conducted the negotiations on behalf of that company, as most of those who were originally opposed to the ratification of the agreement have given up all idea of obstruction.

Pat Murphy came to the front with very heavy sales. The market opened at 37% bid, and it at once became evident that very large seiling orders were out. Nearly 2,000 shares were sold, when the bidding dropped to 38%. At this figure 500 shares changed hands, the stock dropped, under heavy offerings, to 35. Purchasers came to the front at this price, and by buying about 3,000 shares stopped the decline.

A letter was to-day received from the mine stating that the winter had at last broken and work could be pushed rapidly forward. There was an abundance of water and the mine was looking better than ever before. Enough ore was mined and within easy reach to admit of the shipment of from one to two car-loads a day for the next month. The ore was of high grade, and the vein more than holding its own. Underground operations were being carried on with all possible energy, and great developments are expected within the next two weeks.

ORGAN BOSH. The organs of two opposite parties have one their best to unite the respectability of St. Louis against Judge Noonan as a man whose election would be a surrender of the city to the control of the reckless mischievous and criminal classes. Out

siders must infer from their talk that our Court of Criminal Correction has been run by him for years past as a safe asylum for felon classes, who cast a majority in St. Louis elections, and whom he has protected in the commission of drimes and in defying and trampling on the laws.

They tell us that this Judge, who has been elected and re-elected by his fellowcitizens, and is now nominated for Mayor by one of the great parties, is a man whose known views and prejudices are all in favor of vice and immorality, and against the cause of good order, justice and decency; that he is the associate, representative and leader of dangerous forces, in whose hands the city will be exposed to humiliation, disorder, pillage and ruin.

If all this be true, the majority of St. Louis people must be worse than the rabble of any other city on the continent, not even Chicago excepted. But instead of being true, it is the veriest campaign bosh that organs ever dealt in. The workingmen of St. Louis are as conservative order-loving and decent as any similar number of citizens in any part of this country. They are as much so on the Democratic as on the Republican side, and on neither side would they support any man whom they did not regard as a true supporter of law, a true friend of public order and justice. Their partiality for Judge Noonan does not justify these attempts to portray them as thugs and Anarchists, and him as a CATILINE or

Such an effort to draw the line between patrician and plebeian, and to array class against class in mutual distrust, is not conducive to good citizenship, good order or good government. Let the organs drop it. The fundamental postulate of our system of government is that the poorest of our people are intelligent and sincere friends of good order and good government, and a mere difference of opinion about party tickets or candidates does not justify either side in denouncing the other as Anarchists and public enemies,

color seems to defy years. He said:

"I first saw John Bright fifty years ago. Cobden took me to hear him speak, saying, we have already all the great writers and learned economists. What we want is to bring the truth down to the minds of the common people." I agreed with Cobden after hearing Bright speak, that Bright was exactly able to do this. His style was simple, clear, direct; his words right good Saxon; his delivery the emphasis, force and pathoss of simplicity. His arguments appealed to common principles and broad ideas. "If not born a Quaker he would have been a prize fighter," said Cobden, and I preferred his extempore thrusts in debate to his set orations. He always spoke with a roll on notes, and never without signs of long previous thought. My personal feeling for him amounted to affection, yet he failed to meet my idea of an old, many sided statesman like Chatham. His work in politics was strongly grasping a few great ideas, and pursuing them without turning right or left. His separation from Gladstone on Home Ruie, caused him great pain. I well remember his utter bewilderment at Gladstone's new departure. His unionism has caused fashionable society to make peace with him and ensured his memory the all-round homage due to it."

The "Directory" is out for this year, and it is a very handsome volume and deserves well of the public. The public know but little of the trouble and annoyance to publish a book the size of a city directory for St. Louis. It contains 159,880 names, and they are to be written plainly, assorted into their proper places, set up, proof read and printed. In each one of these departments a mistake may occur, and of course it eannot be corrected; but we are happy to say that Gould's Directory is more reliable than any city directory published in this country, and perhaps no one uses a directory more than the reporters upon the daily press.

THE CARPENTERS.

Chairman George J. Swank Denies a S men and give them eight hours and 35 cel per hour is all wrong and misleading. To Carpenters' Council has been trying since N vember to bring about a meeting of committee representing the master builders of the cil and the journeymen for the purpose of estal lishing a minimum rate of wages to be pair for an eight-hour work day. Thus far the master builders, he claims, have aimost entirely ignored the journeymen. A resolution was passed by the Carpenters' Council at it last meeting that, unless an agreement was made with a majority of the master builder by Sunday afternoon next, every union carpenter would decline to go to work until the journeymen's demands for \$3.20 for an eight hour work day were acceded to, or some other agreement made with a majority of the master builders. The meeting to be held Sunday is a very important one.

It is estimated that receiving bouses there hold anywhere from 7,000,000 to 10,000,000 bushek in the country, which can be expected to arrive in May. In addition to this the private elevators probably contain 1,500,000 bu, which will be put out at the proper time.

All went merrily along until nt 5 p. m., at a point about six miles from town, in the woods of the mountains, Miss Georgie Myers' very spirited horse slipped in jumping a log and fell on Miss Myers' leg. She had presence of mind to withdraw the stirrup foot to prevent further injury. Miss Midred Myers and Mr. Neiderlighaus left the party to take care, the best they could, of the sufferer and rushed for assistance. A kindhearted farmer living half a mile away from the place of the accident, at once filled a wagon bed with hay and went there. Miss M. Myers and Mr. Neidringhaus hastened to the hotel to break the sad news to Mrs. Myers and to summon medical aid. Dr. M. H. Post of St. Louis, a visitor, and Dr. W. W. Johnston of Eureka Springs, with Mr. Neidringhaus, supplied with restoratives and wraps, proceeded at once in a carriage to the place of the mishap. The necessary are in moving over the rough roads and the inky darkness of the night, brought them to the hotel after midnight. The tibla between the lower and middle third, suffered a transverse fracture, which when adjusted, was placed in plaster paris. The young sufferer, who feels quite comfortable this morning, is the daughter of a well known citizen of St. Louis, Mr. G. S. Myers, of the firm of Liggett & Myers. The gentlemen of the party are loud in their praise of the coolness of the ladies under such trying circumstances.

Hudson has done big work for the Browns during his several years' connection with them, and he will be one of the Browns' best mainstays this season. The hard-working masses, without respect to class, find in the national game on Sunday an acceptable chance for rest and recreation, and what the public want they will have.

B. Renaud, the Canadian horseman, offers to match a 147-pound unknown against young Mitchell for a purse of \$2.500 or \$5.000.

Jockey Club will probably be their last one held there, as it has proved a financial failure, due in great part to the long spell of rainy weather. The racing has in point of fact been of a much poorer character than at the New Jersey winter tracks, for purses of but 100 each, of which amount \$25 went to the second horse. They have been simply a means for pool-room gambling throughout the country, and racing men understand that the miserable purses have been given by the pool rooms of the country and not by the Louisiana Jockey Club. The regular spring meeting begins April 8, the entries being very limited in number. It will be interesting, however, as bringing outthe qualities of some of the 2-year-olds who will later on take part in the races to be run hereabout. The Lamanney Brothers after the New Orleans meeting, which closes April 18, will take their stable direct to lay City.

Burch will reach the track with his horses, which have been at Augusta, Ga., for the winter. The horses in both strings are about half fit for racing, and can be got ready in a week or ten days.
